†MSA's and PMSA's whose October 1984 definition is the same as an SMSA defined as of June 1981. Titles and central cities vary in some cases. <sup>1</sup>Data on serious crimes have not been adjusted for underreporting, this may affect comparability among geographic areas and over time. <sup>2</sup>Per 100,000 resident population estimated as of July 1 for 1983 and 1982 and enumerated as of April 1 for 1980. <sup>3</sup>Includes burglary, larceny-theft, and motor vehicle theft. <sup>4</sup>Includes murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault.

# Table A. Metropolitan Areas Housing

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA.]

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table, see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

[MSA = Metropolitan statistical area. CMSA = Consolidated MSA. PMSA = Primary MSA. Data for New England county metropolitan areas (NECMA's), not New England MSA's, are presented in this table; see appendix 3 for data for New England MSA's. All areas defined as of October 12, 1984. See appendix 2 for alphabetic listing of PMSA's with parent CMSA]

TABLE B:

# Central Cities

## NOTE:

Table B presents data for the United States, States, and metropolitan areas and their central cities. The metropolitan areas covered are metropolitan statistical areas (MSA's), consolidated metropolitan statistical areas (CMSA's), primary metropolitan statistical areas (PMSA's), and New England county metropolitan areas (NECMA's). The areas are presented in alphabetical order by State, by metropolitan area within State, and by central city within metropolitan area. PMSA's are presented in alphabetical order within their parent CMSA. Metropolitan and "inside central cities" totals are shown following the U.S. and State totals.

Data are presented for 86 items in 23 sets of 6 pages each. All 86 items are presented for the areas included in a given set before the table continues on to the next group of areas.

For an alphabetical listing of central cities presented in this volume and the code for their metropolitan area, see appendix 4.

(For explanation of symbols, see page XXIII)
